OMB APPROVES VETS-4212 REPORTING FORM
The Office of Management and Budget (OMB) recently approved a new VETS-4212 form for federal contractors and subcontractors to report on their employment of veterans protected under the Vietnam Era Veterans’ Readjustment Assistance Act of 1974 (VEVRAA). Under the revised form, set for implementation in 2015, contractors will report the specified information for protected veterans in the aggregate rather than for each of the categories of veterans protected under the statute.

VEVRAA requires covered federal contractors to report annually to the Secretary of Labor on their employees and new hires who belong to the specific categories of veterans protected under the statute. Under the most recent amendments to the statute, those categories are:

- Disabled veterans.
- Other protected veterans.
- Armed forces service medal veterans.
- Recently separated veterans.
